Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

Our SAC is committed to supporting our SSP goals and providing feedback on policies and programs. Some highlights from this year's discussions are:

- Lunch program feedback
- Discussion of language-based discrimination in policies and definitions
- Focus on supporting language development for EAL students
- Discussion of an updated mural on the outside of the school building focused on our vision of being an open and welcoming place to land. We are looking for ways to have community involvement.

The SAC conference was a great way to inform the SAC chairs (and thus the rest of the SAC) about policies and priorities in the public school system. Our SAC was particularly interested in the Three Braids PD that all Principals & VPs have had and would like to see that extend to

all staff.

Please list any significant milestones and success stories that the SAC would like to highlight.
